SAFETY MEASURES

1. PRODUCT HANDLING:

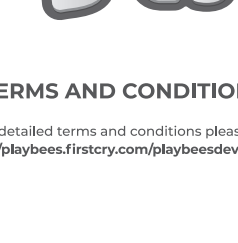

- Do not expose the product to excessive dust or heat. (under direct sunlight, gas burners, heaters)
- Ensure no liquid spills onto the device, as this could cause malfunction or could prove to be a fire hazard.
- The device should only be cleaned with a dry cloth.
- Be careful not to pinch the cord or walk on it when close to the plug.
- Do not submerge the device in water.
- Electrical waste should not be disposed of with household waste. Please follow the disposal instructions provided by the local authority.

7

2. BATTERY HANDLING:

- Avoid exposing the battery to temperatures above 60°C.
- When disposing or recycling batteries, please ensure proper battery handling and disposal instructions from local authorities
- Avoid mechanical shocks to the battery pack.
- In case of battery leaks, do not let the liquid come in contact with the skin or eyes. If affected, clean the area with water and consult a doctor.
- Keeping the battery fully charged will prolong its life.
- A monthly battery charge of at least 4 to 5 hours is required to ensure optimal performance.
